## Construction Applications

**R-Tech Fanfold**

*Insulfoam LLC offers the most extensive line of expanded polystyrene (EPS) insulation products in the industry. Although our standard R-Tech® Insulation is suitable for virtually every construction application, our products are offered in a broad range of compressive strengths. In addition, these products are available in numerous sheet sizes and thicknesses. The following chart will assist in deciding what product best meets your needs.*

**Interior Wall Application**

REQUIRED COMPRESSIVE STRENGTH	INSULFOAM PRODUCT	COMPARABLE XPS
10 psi	R-Tech	None
15 psi	R-Tech X	Type X
25 psi	R-Tech IV	Type IV
40 psi	R-Tech VI	Type VI
60 psi	R-Tech VII	Type VII

**Cavity Wall Application**

*Our standard InsulFoam® insulation product is also available in a wide range of compressive strengths, panel sizes and thicknesses.*

***Please refer to the applicable R-Tech or InsulFoam Data Sheets in this section for additional information.***

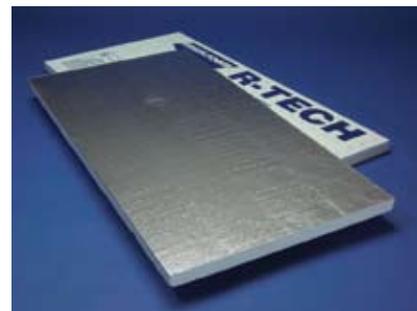

***Please refer to the applicable Section in the manual for additional information on a particular application.***

**InsulFoam Drainage Board**

**Sheathing Application**

**R-Tech X**
